

Attention: Safety Director

The OSHA (Occupational Safety and Health Administration) Hazard Communication Standard (29 CFR Part 1910.1200) requires that Maine Standards Company provide Material Safety Data Sheets (MSDS) to our customers where products contain chemical ingredients determined to be health hazards and comprise of 1% or greater of the composition of the product (0.1% or greater for known carcinogens).

**Please refer to the table below for VALIDATE® Products that DO require an MSDS sheet**

Chem 4	104ab					
Chem 21	201bc	201sd				
TDM 1	301ab	301au	301bc	301db	301ri	301vt
UC 1	701au	701bc	701ro	701db	701ri	701vt
UC 4	704au	704bc	704ro	704db	704ri	
GC 2	1200vt					
GC 4	1400bc	1400sa	1400sd	1400re	1400vt	

Products that *do not* contain chemical ingredients determined to be health hazards or products that do contain such chemicals, but the concentration is less than 1% of the composition of the product (less than 0.1% for known carcinogens).

**Please refer to the table below for VALIDATE® Products that DO NOT require an MSDS sheet**
